

**In the name of God**  
**Department of Parasitology, Mycology and Entomology**  
**Theoretical Course Program: Medical Parasitology and Entomology**  
**2<sup>nd</sup> semester: 1404-1405, Saturday and Monday 8-10 (Indian students)**  
**Course Instructor: Dr. Ali Haghighi**

| Row | Date       | Hours                                                          | Professors name   | Subjects (Topics)                                                                             |
|-----|------------|----------------------------------------------------------------|-------------------|-----------------------------------------------------------------------------------------------|
| 1   | 1405/02/12 | 8-10                                                           | Dr. Haghighi      | General Parasitology                                                                          |
| 2   | 1405/02/19 | 8-10                                                           | Dr. Tahvildari    | General of Trematodes, Liver Trematodes                                                       |
| 3   | 1405/02/26 | 8-10                                                           | Dr. Tahvildari    | Blood, Intestinal and lung Trematodes                                                         |
| 4   | 1405/03/02 | 8-10                                                           | Dr. Rouhani       | General of Cestodes and Taenia spp.                                                           |
| 5   | 1405/03/09 | 8-10                                                           | Dr. Rouhani       | <i>Hymenolepis nana</i> and <i>Echinococcus</i> spp.                                          |
| 6   | 1405/03/16 | 8-10                                                           | Dr. Ebrahimi      | General of Nematodes, <i>Ascaris lumbricoides</i> , <i>Enterobius vermicularis</i>            |
| 7   | 1405/03/23 | 8-10                                                           | Dr. Ebrahimi      | <i>Trichuris trichiura</i> , Human Hook worms                                                 |
| 8   | 1405/03/30 | 8-10                                                           | Dr. Saberi        | <i>Strongyloides stercoralis</i> , <i>Trichinella spiralis</i> , <i>Trichostrongylus</i> spp. |
| 9   | 1405/04/06 | 8-10                                                           | Dr. Saberi        | Visceral larva Migrans, <i>Dracunculus medinensis</i> , Filariasis                            |
|     | ?          | Mid-Term Exam (Part 1): General Parasitology and Helminthology |                   |                                                                                               |
| 10  | 1405/04/08 | 8-10                                                           | Dr. Haghighi      | <i>Entamoeba histolytica</i> /E. dispar, Nonpathogenic amoeba                                 |
| 11  | 1405/04/13 | 8-10                                                           | Dr. Haghighi      | Free living amoeba, Intestinal and Genital flagellates                                        |
| 12  | 1405/04/15 | 8-10                                                           | Dr. Tahvildari    | Ciliates, Intestinal coccidian                                                                |
| 13  | 1405/04/20 | 8-10                                                           | Dr. Seyyed Tabaei | General protozoology, Toxoplasma                                                              |
| 14  | 1405/04/22 | 8-10                                                           | Dr. Seyyed Tabaei | Malaria                                                                                       |
| 15  | 1405/04/27 | 8-10                                                           | Dr. Lasjerdi      | Leishmania and Trypanosoma                                                                    |
| 16  | 1405/04/29 | 8-10                                                           | Dr. Moinvaziri    | Entomology (Phthiraptera, Siphonaptera, Hemiptera, Culicidae)                                 |
| 17  | 1405/05/03 | 8-10                                                           | Dr. Koosha        | Entomology (Psychodidae, Simuliidae, Muscidae, Myiasis, Mites, Tick)                          |
| 18  | ?          | Final Exam (Part 2): Protozoology and Entomology               |                   |                                                                                               |

**Mid-term and Final semester exam dates should be announced by the International Education.**

**Note:** In case of absence of **more than 4 sessions** in the theoretical class, student is not allowed to take the exams and the absence will be recorded for the International Education office (Ham-ava site).
